will have to look for the Vicodins.... should have thought of that last nite! Will use ethanol tonite instead.... have a work dinner for Simon & Nick who are leaving Seroquel

I think the concept of paintball is better than actually playing it..... shooting someone else can be fun, but being hit (over & over!) is demoralizing

Oh yes, strictly business I'm sure...

Hope you have some Vicoden left. That will take the edge off. I am on my last 5...bad girl! I have always wanted to try paintball but everyone has the same painful horror stories.

Fla was very humid, & mostly rainy. Spent much of the time avoiding investigators I didn't want to deal with. It was a party atmosphere, but you know me, strictly business.....

Went paintballing yesterday with Austin & can barely move today; combination of wounds from the paint pellets, and soreness from crawling thru wooded areas so as to avoid being ambushed by 12 yr olds with weapons!

It seems they have...

Did you enjoy Florida? See any old flames???

Wilmington was Wilmington. I drove so it really made for a long week.

How was Father's Day?

Yes, they are a bunch of provocateurs..... its not enough they never approved Seroguel in their country, but now they've made it personal !!

back from Fla., after a week of schmoozing w investigators..... hope your trip to Wilmington was exciting

You and the French... :) They seem to have rejected quite a few this year...

19th ECNP Congress

Paris, France, 16 - 20 September 2006

Serial number 357230

Dear Dr Weisler,

We are very sorry to inform you that your paper entitled:

Quetiapine monotherapy is efficacious for depressive episodes of bipolar I disorder: combined results from two double-blind studies

has not been accepted for presentation and publication during the 19th ECNP Congress.

With kind regards,

On behalf of the 19th ECNP Congress

Sanna Väلتtilä
